THOUSANDS OF ACRES OF FOREST BURNT

Your grandparents' legacy, destroyed

Your legacy, threatened

JNF, for ISRAEL forever.

JNF is your direct connection to the people of Israel

During the recent conflict, JNF's Operation Security Blanket accomplished the following:

- Over 10,000 children sent to summer camps away from danger
- Purchased tons of retardant used to stem fires, saving entire forests
- \$4 million dollars spent on firefighting airplanes that sprayed the retardant
- 500 unemployed hired for northern cleanup, providing economic stimulus
 - Compact fire trucks ordered and prepared for duty

Our work is not yet done!

Five thousand acres, over 2 million trees have been lost. The green legacy of generations of Jews is now ashes. It will take decades to recreate what was destroyed, but we will not sit and bemoan our loss.

We must take action. Operation Northern Renewal is a campaign preparing Israel for its future, rebuilding to provide hope and opportunity for our people.

*Under Operation Northern Renewal's umbrella,
JNF is:*

- **Fighting fires before they start, with new equipment and larger brigades.**
- **Creating jobs to repair the damage in the northern forests and parks**
- **Delivering scholarships to Israeli youth**
- **Promoting Israel-American unity by bringing US students to the north for community service**

Be it trees, water, community development, tourism, security roads, research or education, JNF is there.

The JNF Essence of Life campaign:

The stress of serving in Israel's military is great. We must thank the young soldiers who have defended our homeland. JNF is building the Essence of Life Park and Recreation Area on the Ramon Air Force Base as a morale boost for the base's 4500 residents, soldiers and their families. With support from every stream of Judaism, this project is a chance for the synagogues of America to show their unity with the people of Israel.

For more information on JNF's critical work in Israel, visit www.jnf.org or call (888) 563-0099
